Sunset Stone was founded in the shadow of the Rockies more than 50 years ago. Over the course of five decades, we've worked hard at perfecting the craft of casting the most realistic stone products available, often rejecting automation that speeds production but compromises beauty. We've always looked to nature for inspiration, and we've always found it. And just like the Rockies themselves, the beauty of Sunset Stone will quietly endure for generations. Whether you're looking to enhance the curb appeal of your home or add beauty and performance to a hospital, apartment complex or restaurant... inside or out, you'll love Sunset Stone.

Sunset Stone manufactures replications of natural stone. Just like in nature, slight texture and color variations are to be expected. The colors you see in our product brochure are close to the actual colors of our stone. However, it is important to note that photography and printing techniques may alter perception of actual colors. Sunset Stone recommends that you obtain a sample of Sunset Stone products before placing your order. ©2025 SUNSET STONE rv0725
